Mohr-Coulomb failure criterion

Step 1 (10% of OC)
Step 5 (50% of OC - non-convergence of the simulation)
Step 2 (20% of OC)
Step 3 (30% of OC)
Step 4 (40% of OC)
Step 0 - 100% of the rock joint = RB

Shear stress ($\tau$) [kPa]
Normal stress ($\sigma_n$) [kPa]
