The diagram illustrates the number of TC events categorized by EDR (Earthquake Damage Ratio) levels: EDR ≤ 0.1, 0.1 < EDR < 10, and EDR ≥ 10.

- For EDR ≤ 0.1, 20 events occurred, with 0 affecting Manila.
- For 0.1 < EDR < 10, 36 events occurred, with 2 affecting Manila.
- For EDR ≥ 10, 15 events occurred, with 10 affecting Manila.

It is noted that Manila was not affected by any events in the EDR ≤ 0.1 category.
