## S1. Additional analysis of impact severity by system

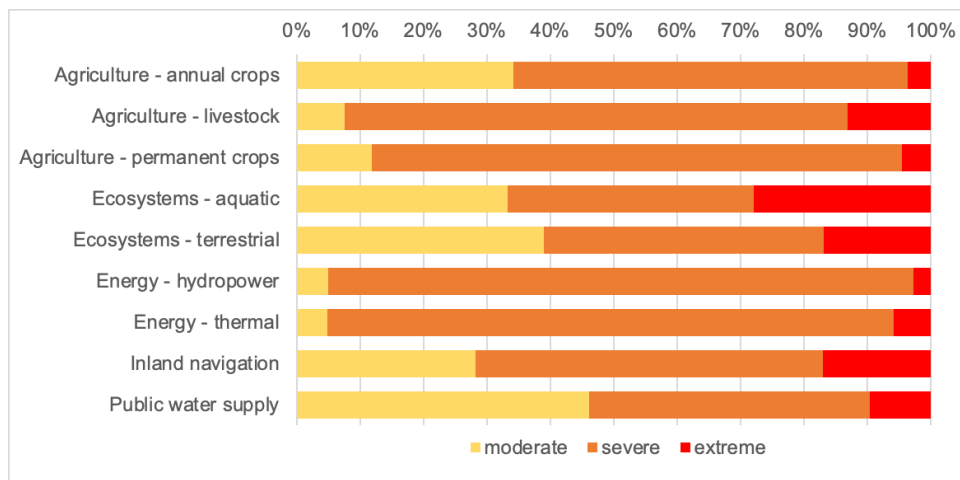

Figure S1: Relative distribution of severity scores by system in EDID

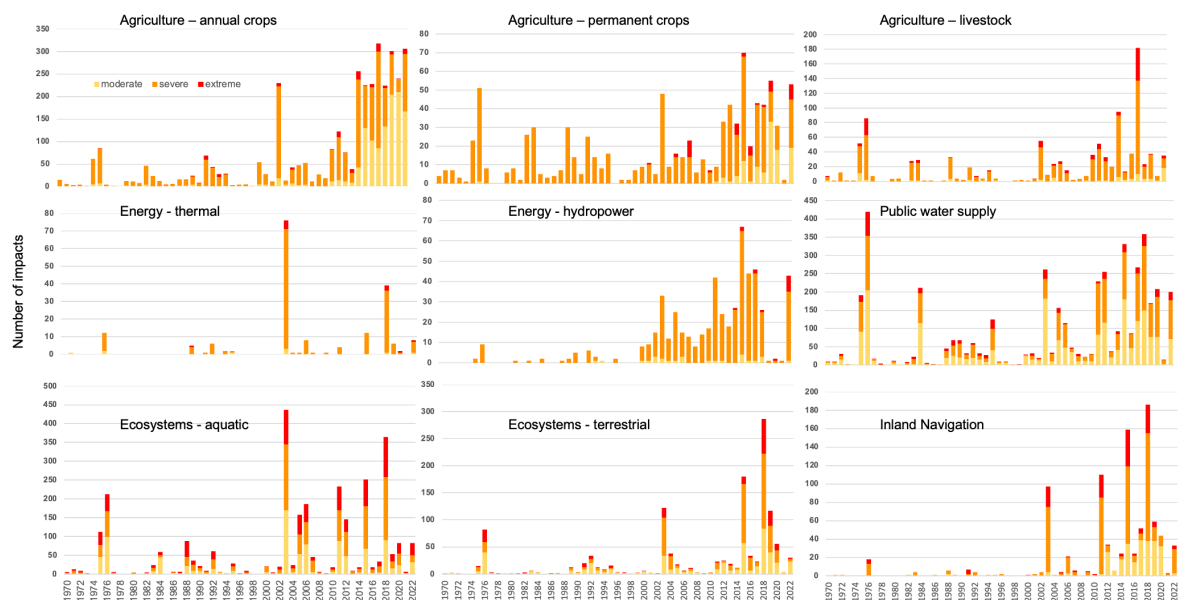

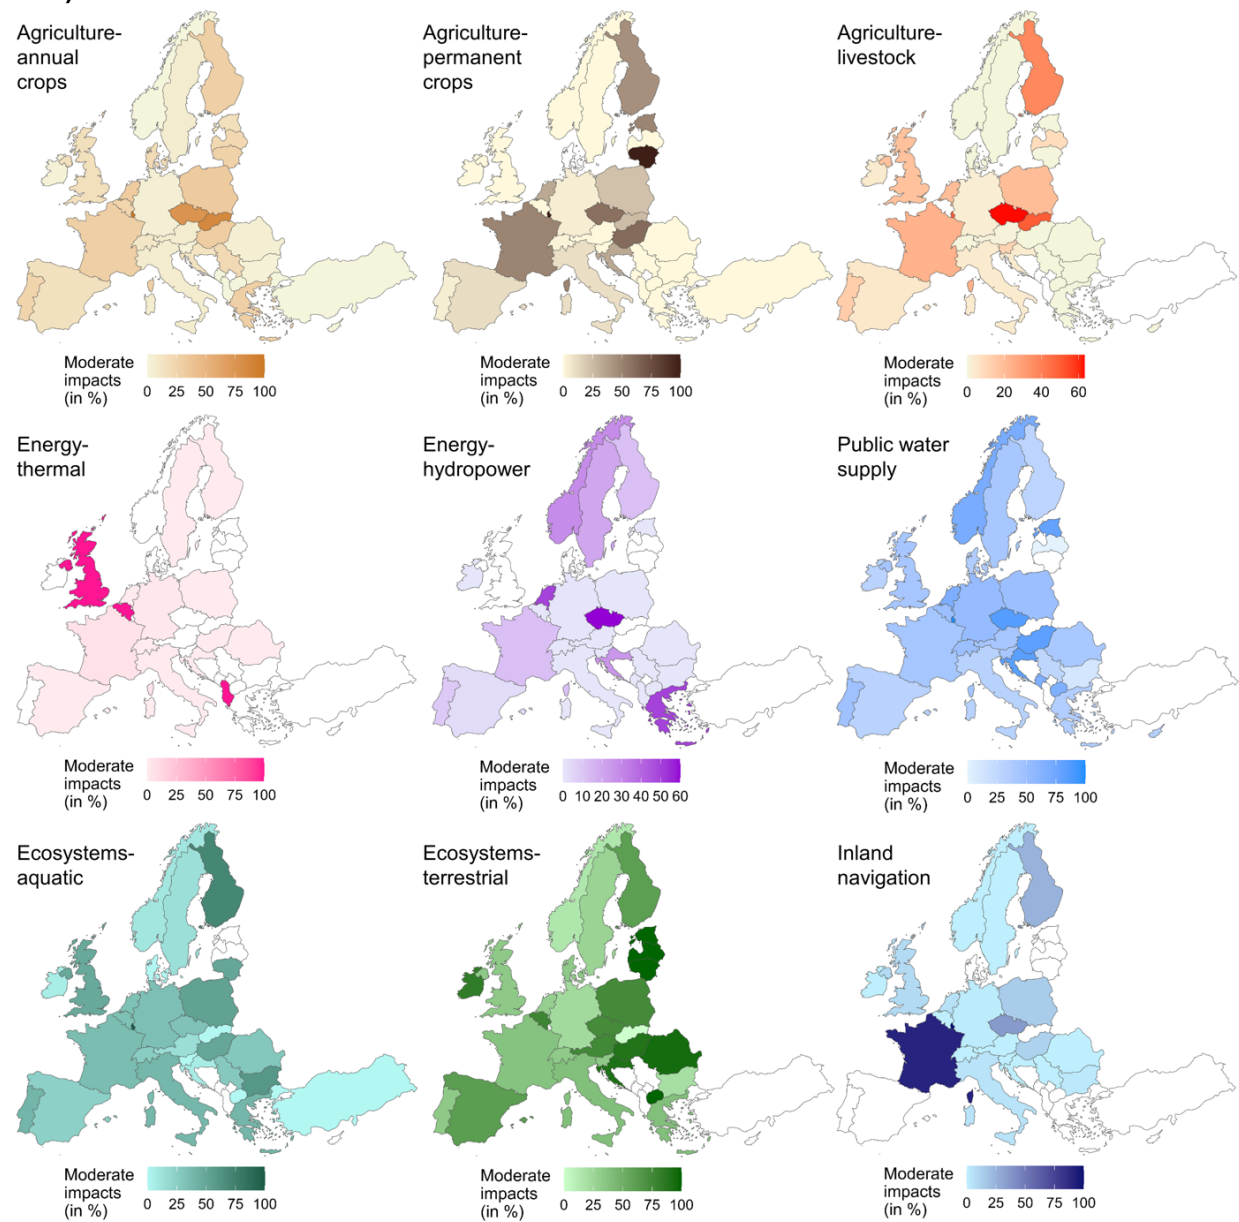

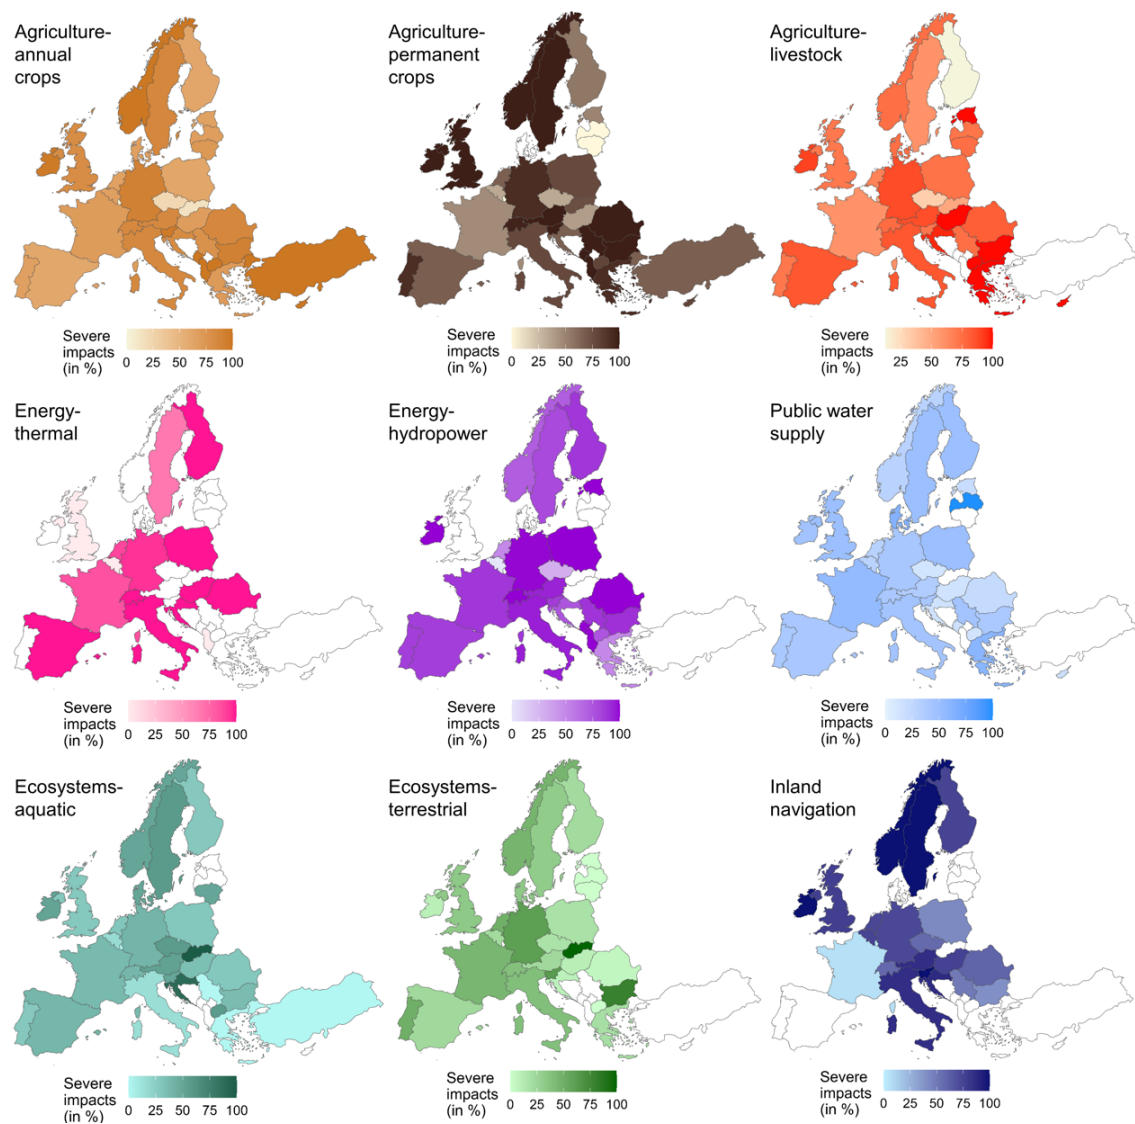

Figure S2: Impact severity over time by system

## S2. Additional maps: moderate and severe impacts (similar to Figure 5 in main text)

**Figure S3: Percentage of moderate impacts in each country and system; scaled to the total % of moderate impacts in the respective system.**

**Figure S4: Percentage of severe impacts in each country and system; scaled to the total % of severe impacts in the respective system.**
