Received and published: 6 September 2013

Dear authors, you have just received the minimum number of referee comments, which were both positive. Therefore, I encourage you to:

- reply to each comment in the open discussion page;
- start preparing a revised version of the manuscript accordingly;
- upload the new manuscript after the closing of the open discussion (11 September).

C1094

In addition to the referees' comments, I suggest to use the standard sentence to acknowledge SafeLand project: The work described in this paper was supported by the project SafeLand “Living with landslide risk in Europe: Assessment, effects of global change, and risk management strategies” under Grant Agreement No. 226479 in the 7th Framework Programme of the European Commission. This support is gratefully acknowledged.

Yours sincerely, Samuele Segoni
