Received and published: 22 September 2013

Dear reviewer #1

The authors would like to thank you for very valuable comments and suggestions, which will undoubtedly improve our submitted manuscript and the related figures and thus will be taken into consideration in our revised manuscript.

In the following parts you may find our reply to your comments:

- Correct/improve English grammar Response: We thoroughly checked grammar error and improved it in the new version of the manuscript.
- Analysis of the susceptibility to seismic-induced landslides: Response: Unfortunately

we do not have enough information and data that is needed to make such a susceptibility assessment.

- The words "Year of Construction" Response: We have replaced "Year of Construction" with "Age of Construction" in the new version of the manuscript.

- Fig. 7: Change the color of dots. Response: I will change them in the new version of the manuscript.

- Fig. 9: Please explain what the 77% in the cake diagram represents. Response: It will be explained in the final version of the paper after the discussion process.
