Received and published: 5 October 2013

Dear Reviewer #3, The authors would like to thank you for your valuable and considerable comments and suggestions. They will be taken into consideration in our revised manuscript. Please find our reply to your comments below: 1. The sub-districts of the Küçükçekmece region will be included in Figure 5 in our revised manuscript. 2. We apologize for this type of error. Figures will be cited in a unique format within the revised manuscript. 3. We are sorry about this forgetfulness. 0.2 Sa based earthquake hazard map was used to estimate structural damage for buildings. Figure 6 will be cited in a proper place in our revised manuscript.
