

Interactive comment on “QVAST: a new Quantum GIS plugin for estimating volcanic susceptibility” by S. Bartolini et al.

O. Jaquet (Referee)

olivier.jaquet@in2earth.com

Received and published: 14 October 2013

The paper could be improved by better separating what concerns the methodological and theoretical aspects from their implementation and usage within QGIS as QVAST plugin. All the details related to the use of QVAST could be presented jointly with the given case studies Lanzarote and La Garrotxa.
