

***Interactive comment on “Reducing volcanic risk on Fogo Volcano, Cape-Verde, through a participatory approach: which out coming?” by P. Texier-Teixeira et al.***

**Anonymous Referee #6**

Received and published: 27 February 2014

I enjoyed reading this interesting article on Fogo Island. The manuscript is made very well, fairly concise and clear. I annotated in the attached pdf some minor inaccuracies and things to clarify. In particular, I suggest enlarge the size of words and descriptions to improve the readability of the figures (see Figs. 1, 2, 4, 6 and 7).
