## ***Interactive comment on “Rockfall hazard assessment along a road on Peloritani Mounts (northeastern Sicily, Italy)” by G. Pappalardo et al.***

**G. Pappalardo et al.**

simomineo@gmail.com

Received and published: 23 June 2014

We would like to thank Anonymous Referee4 for his deep interest in our paper. Usually, local geologist and scientific community benefit from such case studies published on international journals. Furthermore, we applied an international risk assessment method in a geologically complex area, so this paper contributes to validate the applicability of this method. Please find attached a reply to the Referee4 comments.
