Interactive comment on “Quasi-synchronous ionospheric and surface latent heat flux anomalies before the 2007 Pu’er earthquake in China” by K. Qin et al.

F. Masci (Editor)

fabrizio.masci@ingv.it

Received and published: 25 July 2013

Dear Dr. Qin,

I have received two reviews of your manuscript. The reviewers’ opinions are both negative. They do not recommend the publication of your manuscript in NHESS. Based on the reviews of your manuscript I would like to discourage the submission of a revised manuscript for the peer-review completion. As an alternative, you must submit a revised version of the manuscript satisfactorily addressing all the referees’ comments.

Sincerely, Fabrizio Masci
