Received and published: 7 July 2014

### **This section describes our responses to the second referee (R 2)**

*R 2 - Very interesting paper. It was a pleasure to read the contribution. The concept of public perception of risk is typically under represented and poorly addressed in mainstream literature. My compliments to the collective authorship for a well written contribution which was properly edited before submission. I believe all parts of the paper should remain.*

We thank the reviewer for the nice words, and his appreciation of our work.

*R 2 - There are a number of minor grammatical, syntax and typographical errors which*
