

Interactive comment on “Flood risk assessment: concepts, modelling, applications” by G. Tsakiris

G. Tsakiris

gtsakir@central.ntua.gr

Received and published: 11 March 2014

I thank the referee for his constructive comments. Analytically: 1. An attempt will be made to combine some of the paragraphs mentioned by the referee. 2. The reference will be added in the final version. 3. It is Tsakiris 2007b 4. It will be corrected. 5. “D” stands for total damages. 6. The term is mentioned either as average or annualised risk. Therefore “or” should remain. 7. It is “UNDRO” as it appears in the reference list. It will be corrected in the text. 8. It is ‘Pistrika, 2010’ 9. It is ‘Pistrika, 2010’ 10. The reference is listed in the ‘discussion’ version of the journal (that is after the first set of corrections). 11. I have no comment on this.
