- 1) which year of the Yushu earthquake in the title?
- 2) what is TBB in abstract?
- 3) I am not appropriate person to review this manuscript, since I do not believe those reports on the precursory activities in the atmosphere and ionosphere, in figures 5,6, and 7. I do not see any convincing evidence in these figures. Authors can claim they found something, just because of a freedom of speech.
