Received and published: 19 January 2015

Dear Dr. Meyer,

the period for the open discussion on your manuscript is now closed. Two independent referees have posted their comments on your manuscript. I was pleased to read that the two referees concur in saying that your work is well written, valuable and of interest. I share this general comment on your work.

I also share the other comments made by the two referees, and particularly the recommendations made to improve the quality of the Figures – which are already quite good.

C3126

I ask you to prepare your responses to the comments of the two reviewers, at your earliest convenience but not later than 18 Feb 2015.

I look forward to reading your responses.

Sincerely,

Fausto Guzzetti NHESS Executive Editor
