Interactive comment on “Linking local wildfire dynamics to pyroCb development” by R. H. D. McRae et al.

R. H. D. McRae et al.

rick.mcrae@act.gov.au

Received and published: 29 January 2015

This Final Authors' Comment has been approved by all co-authors.

We wish to thank to reviewers for their very helpful comments. We feel that they have made this a much improved paper.

This is our intended final rework, pending the editor's decision. We have kept to our replies to the individual reviewers' comments, but some variations were needed to meet overlapping comments.

Attached to this are:

1) The revised paper, as a Supplement.

2) The revised Figure 4.

We think that this satisfies the reviewers and meets the Editor's requirements.

Rick McRae
