Received and published: 20 May 2014

Only a short comment to point out that in 1979 (many years ago) I wrote a paper, unfortunately in Spanish, titled “Periodicidad de las precipitaciones atmosféricas caídas sobre España Peninsular, Revista de Obras Públicas Agosto 1979. Pags. 673-678.”. The topic of this paper is just the application of Fourier analysis to the rainfall on the peninsular Spain in order to study their ‘period’. I add the pdf of this publication.

Please also note the supplement to this comment:
