The topic treated in this paper is really interesting. Two reviewers raised minor/moderate issues very easy to address. From my side, I provided here further small changes that should improve the impact of the paper.

(1) Please enlarge a little the introduction. Now it is only focused on UK road issues, however I would like to see a wider description about the problems related to the roads, at the global level. It is necessary to add just half a page, and further references.

(2) Add a scale bar in the Fig. 1.

(3) Improve the quality and details of the Fig. 3. Now it is difficult to see details and

C1548

words. Add scale bars also.

(4) Please add a detailed legend in the Fig. 6.
