Interactive comment on "Assessing the performance of regional landslide early warning models: the EDuMaP method" *by* M. Calvello and L. Piciullo

M. Calvello and L. Piciullo

lucapiciullo@gmail.com

Received and published: 16 November 2015

The Authors thank the Anonymous Referee for his/her valuable comments, which will give to the Authors the opportunity to improve the paper before its resubmission to NHESS. The manuscript will be surely revised according to the recommendations provided by the Reviewer. In particular: the revised manuscript will surely include some missing references; the description of the test site will be improved; the section dealing with the discussion of the main outcomes will be improved and expanded.
