Dear Authors, I have now examined the entire discussion after my suggestion. Now it is really improved since you provided detailed replies. I think you should have a chance to propose a revised version of the paper after major changes.

If you are willing to make the necessary revisions, I will be pleased to reconsider your submission, with the help of the same reviewers who examined the present work. In submitting your revised version, please provide a detailed list of the changes made

C716

to the text, and a detailed list of your responses to the reviewers' comments. I also recommend to check carefully the English.

Please note that this editorial decision does not guarantee that your paper will be accepted for final publication in NHESS. A decision will be made when the revised version will be available, and will be evaluated.

Best regards

Paolo Tarolli
