Dear editors of Natural Hazards and Earth System Sciences,

Many thanks to your in-depth reviewing and valuable comments. We have now revised our manuscript according to reviewer suggestions. We believe the manuscript is improved and hopefully ready for publication.

A zip file is prepared as a supplement file in which two files included. One is called "NHES-2014-307-coverletter.pdf" that contains Point-by Point answers to reviewer's comments. The other is a track-changes version of the manuscript called "nhess-2014-

C930

307-revision\_with\_track\_change.pdf.pdf".

With best regards, Wei Yang on behalf of Yang et al.

Please also note the supplement to this comment:
