Dear Dr. Rosa Lasaponara

I am writing to notify you about abusive comments which contain personal insults by M. Marghany to Nat. Hazards Earth Syst. Sci. Discuss., doi:10.5194/nhess-2016-191-SC1, 2016. Actually, he has introduced himself as Prof. Majed M. Marghany, but he has not promoted to professorship, yet. He was our ex-colleague and co-author, which has been terminated from our institute (Geoscience and Digital Earth Centre (Geo-DEC), Universiti Teknologi Malaysia) because of his mental problems and non-respectful be-

havior to office time and working days. He is not expert in field of geological remote sensing and landslide mapping and does not have any basic acknowledge understanding content of the manuscript. All of his abusive comments are not scientific because he did not read the manuscript properly. His abusive comments insulting to University Technology Malaysia “ I think both authors are well practicing copy and paste by using rephrasing software as this common activity in this type of low class education and Research University”, which as really non-professional and academic. In addition, he insulted to our previous publications that are published in high standard and prestigious journals such as Ore Geology Reviews, Advances in Space Research, Remote Sensing and etc. “I went through these doubtful publications even are published in high impact factor journals, which are wrong scientifically. I just like to show everyone how wrong scientifically paper can be published by help of network or chief editor boards “.

His abusive comments could be seen in all written sentences. Accordingly, we respectfully request for censoring his comments that are not of substantial nature of direct relevance to the issues raised in the discussion paper and contain personal insults.

With Kind Regards

---
