Supplementary Material

Table 1 shows the selected keywords for the newspaper research. The keywords were combined with "OR". Since only a simple search was possible (no interlacing), we conducted three searches individually (A, B, C). Including "storm" in the search A would have given too many hits, therefore we had to combine it with the words "wind" or "thunderstorm" to reduce the amount of hits (B).

Table 1 The selected keywords for the newspaper search (translated from German). The keywords are combined with "OR". Three searches were conducted individually (A, B, C). Similar words (e.g. different verb forms or endings) were considered automatically by the search engine.

A		B		C	
German	Translation in English	German	Translation in English	German	Translation in English
(Unwetterschäden	(damage caused by storm	Sturm	storm	(Blitz	(Lightning
heftige Regen	heavy rainfall	**AND**	**AND**	Blitzschlag	Lightning stroke/ strike
