

Dear Prof. Tarolli,

We are delighted with your decision on our manuscript acceptance for publication. Thank you very much for editing our paper and your final comments. We have amended figures according to your suggestions. We added units to x-axis in Figures 19 and 20. We also added scale bar to all maps (f03, f06,f12, f14, f15, f16, f17, f20, f22, f23 and f25).

We appreciate all comments from you and anonymous reviewers; they greatly helped to improve the paper.

Once again, thank you very much

Kindest regards

A. Indiana Olbert
