Dear Prof. Malamud.

Please be advised that I have responded to all reviewers' comments for this article. One common theme that was raised the reviewers' interest and hence reflected in their comments, was the roles of Indonesian researchers within these publications included in the literature review. Hence I kindly request to change the title of the paper to be:

'Research Trends and Authorship on Natural Hazards, Disasters, Risk Reduction and Climate Change in Indonesia: A Systematic Literature Review'

This new title add two words of 'and Authorship' to the original title.

Best Regards,
