

Cover letter for the revised and corrected version of our article: "*A 240 year History of Avalanche Risk in the Vosges Mountains from Nonconventional Sources*", submitted to Natural Hazards and Earth System Sciences

Dear Natural Hazards and Earth System Sciences editorial board, dear Dr. Sven Fuchs,

Thank you very much for your kind comments about our work, and for noticing the typo in the figure caption of our draft. It has been corrected as suggested. We hope that this will make the paper adequate for publication in Natural Hazards and Earth System Sciences, where we firmly believe that it should be of high interests for a large part of the readership.

With best regards,

Florie Giacona, for the authors.
