Dear Respected Sir, Greetings

To The Editor, As we have received two of the anonymous referee’s comments, where we found some valuable observations from two anonymous reviewer’s end and according we send our initial reply. Both suggested to consider new image to proof where there is no anomaly in absence of earthquake compare to earthquake presence where we observed the anomaly.

However, as they told to improve the manuscript , and we are accordingly start to work on the comments and will revised the manuscript based on their suggestions.

So therefore, we need time from your end for further improvement works and according revised submission to them.

Looking Forward to hear from you regarding the time which we badly need for improvement of our manuscript so, that, finally it will be more scientific and sound while we clarify the comments.

Thanking You, Sincerely yours Biswajit Nath (Author)
