Interactive comment on "Wave run-up prediction and observation in a micro-tidal beach" *by* Diana Di Luccio et al.

G. Benassai

benassai@uniparthenope.it

Received and published: 31 October 2017

Dear anonymous referee #2, Thank you for your punctual comments and corrections. We checked the reference style and revised the figures in order to improve their readability (Fig. 4 was changed). We added a more extensive explanation of the WWIII model implementation. Moreover, we expanded the discussion and the conclusions. All the changes in the text are evidenced in yellow (there are many). On behalf of the authors Diana Di Luccio & Guido Benassai
