

Interactive comment on “Assessment of Forest Fire Rating Systems in Typical Mediterranean Forest, Crete, Greece” by Mohamed Elhag and Slivena Boteva

Anonymous Referee #1

Received and published: 24 April 2018

Dear Editor Dear Authors Dear Reviewers

I can see great efforts paid by all parties. The article is solid and worth fast publication. Moreover, the comments are useful to improve the context of the article. On the other hand, I must agree that the reviewer #3 comments are not totally clear and his/her language shall be revised in indeed. I encourage the editor to proceed with the article based on its valuable scientific content.

Yours
