Received and published: 23 November 2017

Dear Editor Segoni,

Thanks for your comments. We have read through all the comments proposed by the three referees as well as the interactive comment in the discussion process. We would give our appreciation to all the reviewers for their very constructive and orientive suggestions those are really the points need to be improved through a major revision. As requested we are starting the revision immediately, and we expect to submit the revised manuscript with concern of all the comments as soon as possible without any compromise of the quality.
