Received and published: 13 July 2017

Dear Dr Garcia-Mayordomo,

Thank you for your constructive questions and comments that lead us to improve this article to a great extent.

Please find your response in the attached files.

You will also find the new version of the manuscript (with and without change track).

For more transparency, e decided to share as an electronic supplement the input values for all faults and the results of the PSHA calculation for the whole logic tree.

On behalf of the authors,

Thomas Chartier
