Received and published: 8 October 2018

We would like to thank Referee #1 for her/his detailed comments and review of our manuscript. We believe that by addressing these comments we were able to significantly correct our analysis and thus improve the manuscript. In the attached pdf-file we address each point raised by Referee #1 (marked in blue, italic) individually. Our responses to comments are shown in black. Text passages from the manuscript are included in red with text changes highlighted by underlining them and choosing red, bold font.

Best regards, Nina Ridder, Hylke de Vries and Sybren Drijfhout
