Thank you very much for your corrections. They constitute a major contribution to improving the work and many have already been made. However, the lack of quantification in the study region is due to the lack of rain gauges and other instruments that allow measurements on the other hand, we will close the open discussion of our manuscript due to lack of funds to meet the costs of publication

Interactive comment on Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2018-207>, 2018.
