Dear Referee, I have some additions to my last reply. In "One year of RST based satellite thermal monitoring over two Italian seismic areas ", Tramutoli has also calculated the missing rate, and it is up to 67%. And I would like to send you the earthquake catalog downloaded from www.csi.ac.cn, but i cannot send you in this reply. So, would you please give me your e-mail? If you want my earthquakes catalog. And my email is zhangying2016@radi.ac.cn. Your Sincerely, Ying Zhang
