

Interactive comment on “Accuracy of geodetic site velocities from repeated GPS measurements: relative positioning over long baselines” by Huseyin Duman and Dogan Ugur Sanli

Anonymous Referee #1

Received and published: 18 November 2018

Dear authors and editor

I will attach you the revised version of you manuscript including some suggestions and questions about the GNSS data processing. In my point of view, I believe that article needs some improvements, which are related with the Glossary, Grammatical and some about the Graphical representation.

Please also note the supplement to this comment:
