Author(s) have to taken into account the following comments:

- Title: the second letter should initiate with lower case letter; "climatology" instead of "Climatology".
- Keywords are missed, they should be included at the end of the abstract.
- Threshold value of dT , (temperature differences between T850hPa and SST which is equal to 13 degrees Celsius) should be compared with other references. Comparisons have to be discussed at this part of the paper.

C1

- The list of acronyms should be added at the first page of the paper.
- At Figs. 2, 3, 4, 5, 6 and 7; North direction and scale should be added.
- Cyclonic EPS bars should be in the same colour (blue) in two regions at Fig. 8.
