Received and published: 15 August 2019

Dear Prof. Ismail Ahmed, Regarding your manuscript: ‘Man-made earthquakes prevention through monitoring and discharging their causative stress-deformed states’ (nhess-2018-350) submitted for possible publication in NHSS, I have tried to find suitable reviewers for a considerable amount of time and could only get one willing to judge your work. Thus, I decided to complete this stage and to take the editor-decision regarding your manuscript based on the single review and my own impression. Your will hear from me in the next few days. Sincerely, Oded Katz
