**Manuscript nhess-2018-406, From examination of natural events a proposal for risk mitigation of lahars by a cellular automata methodology: a case study for Vascún valley, Ecuador.** by Valeria Lupiano, Francesco Chidichimo, Guillermo Machado, Paolo Catelan, Lorena Molina, Claudia R. Calidonna, Salvatore Straface, Gino M. Crisci, Salvatore Di Gregorio

Dear Editor,

We are submitting the corrected version of the manuscript following your indications. In particular, the unwanted comment in the Conclusion section ("The main contributions to this research..."), has been removed. The author's personal contributions have been now included in the Acknowledgment section, and the contribution of all authors has been listed.

Yours Respectfully.

Francesco Chidichimo, PhD

Department of Environmental and Chemical Engineering

University of Calabria. Via P. Bucci 42B, 87036 Rende (CS), (Italy)
