# Interactive comment on "Mapping Accessibility for Earthquake Hazard Response in the Historic Urban Center of Bucharest" *by* Cristina Merciu et al.

**C. Merciu**

cristina.merciu@geo.unibuc.ro

A. Suggestions:

1. Suggestion 1:

The avoiding of the comment to the Fig. 2b, respectively: "the photograph shows efforts to identify victims and property"

Authors' Answer:

We agree.

The caption for fig. 2B (page 6, lines 122-123) was therefore altered from:

Figure 2b.The collapse of the Continental block in Bucharest's historical centre in 1977 blocked the access streets, so clearance was delayed by more than 12 hours; the photograph shows efforts to identify victims and property.

To:

Figure 2b.The collapse of the Continental block in Bucharest's historical centre in 1977 blocked the access streets, so clearance was delayed by more than 12 hours.

2. Suggestion 2:

The streets canevas on the Fig. 10 is not clear. Please, make clearer, for a better orientation of the readers!

Authors' Answer:

We have improved the Fig.10 (page 20), making the street network more visible.

B. Corrections:

S. Boengiu' comments:

For uniformity of English, please replace in the entire manuscript all centre(s) with center(s), or inversely. See the followings lines: 120,165,166,168 (inside the table), 204, 340, 352 and 412.

Authors' Answer:

The spelling of "centre" has been changed to "center" as requested in the specified locations.

Finally, the authors again offer their thanks for the consideration given to our paper, and for the useful suggestions and corrections.
