Interactive comment on "Exposure-based risk assessment and emergency management associated with the fallout of large clasts" *by* Sara Osman et al.

Sara Osman et al.

costanza.bonadonna@unige.ch

Received and published: 14 September 2018

We thank the reviewer for the supportive feedback. We appreciate that reviewing this paper without having the Rossi et al paper already available online is not ideal. We hoped to have the paper officially accepted in EPSL before September 15 but unfortunately the process was longer than expected. A few minor comments are now required by the senior editor on this modelling paper for it to be accepted, but it will be after September 15. Considering that the Rossi et al. manuscript is close to its final form, we are happy to provide that to the NHESS editor/reviewers in order to speed up the process (even though it cannot clearly put online for copyright reasons). Otherwise we
