

Dear editor,

We thank you and the reviewers for this final review.

We have changed all the technical corrections that remained, as requested by the editor.

-We have changed the resolution of figure 5 to match that of figure 3. We additionally changed that of figure 2 to match figure 3 as well (although this was not requested).

We have original TIFF files of all figures if needed.

-We changed the scales of figure 4 from 0-1 in both a and b

-We eliminated all double spaces

-We replaced commas by digital points

However, we were not able to change the gray color of figure 1. The reason for this is that we had a data loss issue and did not have access to the original file. As the editor wrote "if possible", we hope you can understand this.

Thank you for all the assistance.

On behalf of the authors,

María Pilar Jiménez Donaire
