

Author's response:

**Probabilistic characteristics of narrow-band long wave run-up onshore**

**Sergey Gurbatov and Efim Pelinovsky**

We thank Editor, Ira Didenkulova for all comments. Below is our answer.

*1) Runup or run-up? Please, select one and use it through out the paper.*

We use now only run-up.

*2) Figures. For all figures, ensure that the minimum font size is legible in your figures.*

We checked Figures and modified Fig 5.

*3) Spelling, grammar, sentence structure. Please, check again your manuscript. I made some corrections in Abstract and Introduction (see attached file).*

We checked manuscript and corrected.
