

Dear Editor,  
the paper "Probabilistic Tsunami Hazard Analysis For Tuzla Test Site Using Monte Carlo Simulations" by H. Basak Bayraktar and Ceren Ozer Sozdinler for the Tuzla test site improved after the changes made by the authors. The points listed by the reviewers were accomplished and the paper deserves publication.  
In the last phase of the publishing procedure special attention should be made for the inclusion of all references.

Best Regards  
Anita Grezio
