Interactive comment on "The spatial-temporal total friction coefficient of the fault viewed from the seismo-electromagnetic theory" *by* Patricio Venegas-Aravena et al.

Patricio Venegas-Aravena et al.

plvenegas@uc.cl

Received and published: 26 February 2020

Dear A. De Santis,

Thank you very much for your comments and suggestions. We have made all the requested changes. however, to comply with referee n1 too, we have decided to request a revision of the manuscript by a native English speaker. This will help clarify the text. The final version with all the corrections will be attached in the final revision stage.

Best regards,

P. Venegas-Aravena on behalf of the authors.
