Dear Editors and Reviewers:

Thank you for your affirmation and comments concerning our manuscript entitled “Temporary confined water responsible for triggering the landslide of a piedmont gentle slope in Ningzhen Area, China”. This manuscript is very interesting, but maybe I didn’t write it well. I will try my best to modify it according to your requirements and opinions. We hope the new manuscript will meet your standard. Moreover, we found that the title of the paper can be modified to “Temporary confined water responsible for triggering the landslide of a piedmont gentle slope in Zhenjing city, Jiangsu Province, China: a case

study” to reflect directly the main purpose and highlight the key points of the paper.

We appreciate for Editors/Reviewers’ warm work earnestly, and hope that the correction will meet with approval.

Once again, thank you very much for your comments and suggestions.
