Interactive comment on "A classification scheme to determine wildfires from the satellite record in the cool grasslands of southern Canada: considerations for fire occurrence modelling and warning criteria" by Dan K. Thompson and Kimberly Morrison

Dan K. Thompson and Kimberly Morrison

daniel.thompson@canada.ca

Received and published: 25 August 2020

We thank the two reviewers for their careful reading of the paper substance as well as layout. We have glady produced a revised manuscripts that satisfies the questions and concerns of both reviewers. We feel the revised manuscript adequately addresses all of their questions and concerns while at the same being a far improved manuscript.
