Interactive comment on "Assessing the impact of explosive eruptions of Fogo volcano (São Miguel, Azores) on the tourism economy" *by* Joana Medeiros et al.

Dario Pedrazzi (Referee)

pedrario@gmail.com

Received and published: 17 August 2020

I went through the manuscript: "Assessing the impact of explosive eruptions of Fogo volcano (São Miguel, Azores) on the tourism economy" I think the authors developed a nice work recollecting information and simulating possible scenarios. In any case I think this is a preliminary work that should be extended to other areas of Sao Miguel Island and if possible implemented with a different software as well. Some suggestions are in the upload pdf best regards

Dario Pedrazzi Geosciences Barcelona (former ICTJA),ÂăCSICÂă Spain
