Dear Damien Serre,

Why did the corresponding author (Ferhat ÖZÇEP from Istanbul University Cerrehpasa) withdrawn our article? Do you know about it?

My objection on the article was that submitted without my acceptance or allowance! I learnt about decision (withdrawn) of corres. authors after your email. It's not so interesting situation for me. It's not also suprise to me as c. authors has not any principle, I think so...

Whenas i studied directly on this work.

Firstly, He added my name to article without my allowance and witdrawn again with same way. It's joke

Best Regards.
