

## ***Interactive comment on “Pyroclastic flow mitigation strategies: a new perspective for the red area” by Mauro Iacuaniello et al.***

**Anonymous Referee #2**

Received and published: 3 June 2021

The bibliography refers mainly to the authors' publications. It is necessary to complete it with various references.

The objective of this research paper should be clearly exposed at the beginning.

A section on the research method should also be included. The method must be detailed and argued
