Received and published: 24 January 2021

We want to thank the reviewers for their comments and insights. We will address many of their responses by adding to the background section and incorporating figures that we believe will significantly improve the article. Below we have outlined our responses, note many of the comments from both reviewers were similar or dealing with the same sections, because of these similarities we combined the comments into one pdf document (located in supplements) and have ordered our responses accordingly.
