Received and published: 24 June 2020

The authors thank the reviewer for his supportive comments on the manuscript. The methodology introduced here can be generalized to other regions as well but meantime it is specifically used here for Iran as a case studied. The reviewer's comment is yet highlighted in the text to further clarify this point as mentioned in the conclusion section.

Interactive comment on Nat. Hazards Earth Syst. Sci. Discuss., <https://doi.org/10.5194/nhess-2020-48>, 2020.
